

**Articulation Agreement
Between
ATA College
And
Office of Career and Technical Education**

This agreement between ATA College and Office of Career and Technical Education (OCTE), allows students enrolled in Health Science classes in area technology centers operated by OCTE to earn advanced standing at ATA College for their work. Students must demonstrate mastery of the attached competencies and a course grade of C (70%) or better to receive credit. (Students wishing to articulate credit into a nursing program must receive a grade of 87% or higher)

The intent of this agreement is to reflect a multi-cultural, non sexist approach. Neither the Office of Career and Technical Education nor ATA College will discriminate in their educational programs, activities, or employment policies against any student on the basis of that student's sex, race, national origin, creed, age, marital status, or disability.

This agreement is exclusive to the area technology centers operated by OCTE and ATA College, and no assurance is given that courses awarded standing through this agreement will transfer to any other post-secondary institution. The parties to the agreement will offer the content designated in the attached program of study in the area of Health Sciences. The program of study will provide opportunities for the students to master skills outlined in the attached competency list.

The parties further agree that the program of study will encourage the integration of technical and academic content in meaningful, applied ways, and that, when possible, instructors of these courses will implement applied teaching techniques and contextual learning models as appropriate.

A grade of A, B or C will serve as documentation that students have mastered the attached list of competencies. Students earning a grade lower than a C or 70% will be ineligible for articulation of that credit. A grade of a C will need further evaluation to ensure the student has mastered the skills outlined in the course syllabus. (Students wishing to articulate credit into a nursing program must receive a grade of 87% or higher)

The parties to the agreement further agree that ATA College and the Office of Career and Technical Education, personnel will maintain relationships that will encourage the alignment of secondary and college curricula to ensure that students master the competencies attached.

The articulation of credit is eligible from the date of this signed agreement up to one year following high school graduation. Articulation is available primarily to Junior (grade 11) and Senior (grade 12) level students. However, Freshman (grade 9) and Sophomore (grade 10) level students enrolled in the articulation courses may receive advanced standing if they achieve the required course grade and provide a letter of recommendation by their faculty member and approval by the President of ATA College.

Authorized articulation courses for the 2009-2010 academic year are:

- AHS 120 Medical Terminology for MED100 Medical Terminology
- CPR 100 Emergency Procedures (combined) with SFA 100 Emergency Procedures First Aid for MED101 Health and Safety Techniques
- AHS100 Human Growth and Development for PSY100 Psychology/Growth and Development

Office of Career and Technical Education Agrees to:

- Identify all students eligible to earn college credit
- Provide completed ATA College admission applications for each eligible student who chooses to enroll for articulation credit
- Provide students with written course syllabi, including course goals and requirements, course content, and competencies, ATA grading policies, and the specific course grading system
- Assign appropriate grades to all students in articulation classes and communicate those grades to the college no later than the end of June following the academic year
- Provide a teacher who meets Accreditation Bureau of Health Education Schools qualifications for each articulated course
- Submit documentation of teacher qualification if necessary

This agreement takes effect upon the affixing signatures by each of the parties named in this agreement on page three. The agreement will be reviewed annually in the month of July, including consideration of curriculum changes, the success of students who enroll in the college program after graduation, teaching strategies, etc. Revisions to the agreement may be made at the time of review. Either party may terminate the agreement at the time of review, provided the party has given written notice of the intent to do so at least one year in advance.
